

The **5th**

JCA-AACR Special Joint Conference

The Latest Advances in Hematological Cancer Research: From Basic Science to Therapeutics

**July
13-15,
2016**

**Tokyo
Bay Maihama Hotel
Club Resort
1-7 Maihama,
Urayasu-shi,
Chiba, Japan**

**Deadline for
Abstract submission:
April 15, 2016**

**Deadline for
Registration:
June 17, 2016**

Organizing Committee

JCA

Dr. Takuro Nakamura
(The Cancer Institute of JFCR)

Dr. Issay Kitabayashi
(National Cancer Center)

Dr. Shigeru Chiba
(University of Tsukuba)

AACR

Dr. Jonathan D. Licht
(University of Florida Health Cancer Center)

Dr. Ross L. Levine
(Memorial Sloan Kettering Cancer Center)

Dr. Catriona Jamieson
(Moores UC San Diego Cancer Center)

Session Topics

1. Leukemogenesis: leukemia stem cell, metabolism and novel target

2. Aging and epigenetics in hematopoietic malignancies

3. Myeloproliferative neoplasms and myelodysplastic syndrome

4. Genetic and epigenetic alterations in childhood leukemia

5. Genomic landscapes of lymphoid malignancies

6. Recent advances in lymphoma therapeutics

7. Immunotherapy of hematopoietic neoplasms

8. Molecular biology and targets of multiple myeloma

Poster presentation (July 14)

Meet the expert evening (July 14)

Banquet (July 14)
